Experience

Associate Full Stack Developer, Forge Tek Studios – Remote August 2025 – Current

- Owned end-to-end development of a production React + TypeScript application serving **5,000+ monthly active users**, integrating 3 external APIs and a serverless email pipeline.
- Optimized API ingestion and caching strategies, reducing data processing overhead by **80%** and cutting page load times from 3.2s to 0.8s.
- Automated CI/CD with GitHub Actions for daily Vercel deployments, DNS via Cloudflare, and GA4 event tracking across 15+ user behavior events.

Full Stack Developer Intern, METY Technology – Remote September 2024 – June 2025

- Designed and built secure RESTful APIs using Go and Node.js/Express for a real-time ML-powered application, supporting **200+ concurrent users**.
- Integrated TensorFlow.js (MoveNet) with React, processing **30 FPS** live camera streams at **<50ms latency** for gesture recognition.
- Automated testing with Jest (**85% code coverage**), enforced code quality with ESLint, and deployed via AWS Amplify CI/CD.

Coding Competition Developer, Bellevue College – Bellevue, WA April 2024 – May 2025

- Authored automated test cases across **5 languages (Java, Python, C++, Golang, SQL)** to validate algorithm submissions for accuracy and performance.
- Built a real-time leaderboard system using SQL and PHP, reducing score calculation time by **40%** through optimized backend queries.
- Designed competition infrastructure supporting **30+ participants**, ensuring reliable test execution and result tracking.

Projects

Resume Automation MCP - LaTeX, YAML, GitHub Actions, LLM github.com

- Built an automated pipeline using **LLM-driven** content selection and data injection to generate tailored documents from a versioned YAML data store.
- Engineered a GitHub Actions CI/CD workflow for automated LaTeX compilation and PDF artifact management on every push.
- Designed a modular architecture separating data (YAML) from presentation (LaTeX), enabling dynamic content pivoting across technical, impact, and leadership variants.

Education

Bellevue College – BS in Computer Science – 3.6 GPA September 2021 – June 2025

- Award: Amazon Scholarship, Activities: Social Media Manager of Computer Science Club

Skills

Languages: Go, TypeScript, JavaScript, Python, Java, SQL

Skills: React, RESTful APIs, Node.js, Express.js, CI/CD, Git, AWS, Microservices, Product Development

Tools: GitHub Actions, Jest, Vite
