Experience

Associate Full Stack Developer, Forge Tek Studios – Remote August 2025 – Current

- Built and shipped a production React application integrating 3 external APIs, handling **5,000+ monthly active users** with responsive, real-time UI across devices.
- Architected scalable, reusable front-end components following SOLID principles with custom hooks and context, achieving **45% fewer component re-renders**.
- Optimized API ingestion and caching, reducing data processing overhead by **80%** and page load times from 3.2s to 0.8s.

Full Stack Developer Intern, METY Technology – Remote September 2024 – June 2025

- Developed secure RESTful APIs in Express.js and Node.js with Redux Toolkit state management, supporting **200+ concurrent users**.
- Integrated real-time React components powered by TensorFlow.js, processing 30 FPS live camera streams with **<50ms latency**.
- Automated tests with Jest (**85% coverage**) and deployed via AWS Amplify CI/CD with ESLint enforcement.

Teaching Assistant, Bellevue College – Bellevue, WA April 2024 – December 2024

- Coached **40+ students** in Java and SQL, and relational database design with MySQL Workbench.
- Facilitated 6 workshops on query optimization, improving lab completion rates by **25%**.
- Boosted student assignment quality by 20% through JUnit and Javadoc guidance.

Projects

Stock Ratio Tracker - Python, React, TypeScript github.com

- Built a Python data ingestion and transformation layer feeding live financial metrics into a React dashboard.
- Integrated Perspective to generate live interactive graphs for real-time monitoring.
- Implemented automated unit tests for correctness of calculations.

Traffic Violation Detection System - JavaScript, AWS Cloud github.com

- Architected an event-driven serverless pipeline on AWS using Rekognition and SQS.
- Automated the violation workflow, reducing manual processing time by over **90%**.

Education

Bellevue College – BS in Computer Science – 3.6 GPA September 2021 – June 2025

- Award: Amazon Scholarship, Activities: Social Media Manager of Computer Science Club

Skills

Languages: JavaScript, TypeScript, Python, Java, SQL, HTML5, CSS3

Skills: Full-stack Web Application Development, RESTful APIs, Data Model design, React/Node, Cloud Deployment, SOLID, Collaboration

Tools: React, Next.js, Node.js, Express.js, GraphQL, Redux Toolkit, Tailwind CSS, Docker, AWS, Git, GitHub Actions
