Experience

Sales Representative, Verizon – Covington, WA November 2025 – April 2026

- Converted **75% of prospects** into customers through consultative selling, achieving **110-130%** of sales targets by matching technical solutions to customer needs.
- Explained technical concepts like bandwidth, signal strength, and device compatibility to help customers make informed, data-backed purchasing decisions.
- Used sales data and diagnostics trends to prioritize solutions, increasing average transaction value and customer satisfaction with targeted recommendations.

Associate Full Stack Developer, Forge Tek Studios – Remote August 2025 – Current

- Built and deployed a full-stack React application integrating 3 external APIs, serving **5,000+ monthly active users** with 99.9% uptime during daily deployments.
- Optimized API ingestion and server-side caching, reducing data processing overhead by **80%** and lowering page load times from 3.2s to 0.8s across 10+ product pages.
- Automated CI/CD pipeline with GitHub Actions and implemented GA4 tracking across **15+ user behavior events**.

Teaching Assistant, Bellevue College – Bellevue, WA April 2024 – December 2024

- Guided **40+ students** in Java and SQL through weekly labs and 18 hours of tutoring support.
- Improved student success rates by **20%** through targeted feedback and supplemental instruction in Java best practices.
- Taught relational database design and MySQL Workbench, raising average assignment scores by **15%**.

Projects

Resume Automation MCP - LaTeX, YAML, GitHub Actions, LLM github.com

- Reduced manual resume tailoring time by **90%** by automating data selection and document formatting through an LLM-driven pipeline.
- Architected a modular data-injection system that dynamically pivots resume content to match specific role requirements across diverse job applications.

Traffic Violation Detection System - JavaScript, AWS Cloud Services github.com

- Processed license plate images from S3 using AWS Rekognition, automating the identification of traffic offenders.
- Engineered Regex to identify California plates, routing events through SQS and EventBridge to trigger SES-based email notices.

Education

Bellevue College – BS in Computer Science – 3.6 GPA September 2021 – June 2025
