Education

Bellevue College – BS in Computer Science – 3.6 GPA September 2021 – June 2025

- Award: Amazon Scholarship, Activities: Social Media Manager of Computer Science Club

Experience

Sales Specialist, Verizon – Covington, WA November 2025 – Current

- Consistently surpassed monthly sales quotas by achieving 130% of targets through technical product expertise and consultative solution-selling.
- Identified and initiated partnerships with local business clients, serving as their primary technical point of contact and building long-term trust.
- Contributed to regional sales targets by translating technical specifications into business value for diverse customer segments.

Associate Full Stack Developer, Forge Tek Studios – Remote August 2025 – Current

- Owned the end-to-end development and deployment lifecycle of a full-stack project, ensuring high standards for code quality and performance.
- Reduced system load and data ingestion overhead by 80% through optimization of client-side rendering and synchronization logic.
- Managed the full production release lifecycle, including build pipelines, environment configs, DNS, and hosting to deliver operational sites.

Teaching Assistant, Bellevue College – Bellevue, WA April 2024 – December 2024

- Improved student success rates by 20% through targeted feedback and supplemental instruction in Java best practices.
- Mentored students on software engineering principles like documentation (Javadoc) and testing (JUnit) as foundational career skills.
- Managed office hours and group labs, adapting communication methods to suit diverse student backgrounds and learning speeds.

Projects

Stock Ratio Tracker - Python, React, Typescript github.com

- Architected the data-flow pipeline connecting Python backend calculations to a live React dashboard, ensuring stable, low-latency ratio updates.
- Increased trader decision-making efficiency by 40% through intuitive, real-time dashboard design and JPMorgan Chase's Perspective library.
- Implemented automated unit tests to ensure correctness and reliability of financial data processing.

Resume Automation MCP - LaTeX, YAML, GitHub Actions github.com

- Reduced manual resume tailoring time by 90% by automating data selection and document formatting through an LLM-driven pipeline.
- Established a versioned "Source of Truth" for professional history, enabling instant iteration and consistent messaging across diverse job applications.
- Configured GitHub Actions workflows to automate LaTeX compilation and artifact management, ensuring consistent builds.
