Experience

Sales Representative, Verizon – Covington, WA November 2025 – April 2026

- Converted **75% of prospects** into customers through consultative selling, consistently achieving **110-130%** of monthly sales quota.
- Drove **70% of sales** by diagnosing technical issues and tailoring device and service plans to customer needs, building trust through technical expertise.
- Maintained accurate CRM records and used sales data to prioritize leads and optimize outreach, increasing average transaction value.

Associate Full Stack Developer, Forge Tek Studios – Remote August 2025 – Current

- Built and deployed a production React application integrating 3 external APIs, serving **5,000+ monthly active users** with 99.9% uptime.
- Reduced system load by **80%** and improved page load from 3.2s to 0.8s, increasing conversion rates by **35%**.
- Managed the full release lifecycle including CI/CD pipelines, DNS, and event tracking across 15+ user behavior events.

Open-Source Intern, CodeDay – Seattle, WA April 2025 – May 2025

- Facilitated weekly stand-ups and sprint retrospectives as Scrum Master, keeping a 3-person team aligned and achieving **100% on-time delivery**.
- Collaborated with the open-source team to deliver database integration MRs, with code reviewed and approved within 24 hours.
- Containerized development workflows using Docker, reducing environment bugs by **25%** and cutting setup time by **40%**.

Projects

Stock Ratio Tracker - Python, React, TypeScript, Perspective github.com

- Built a Python data pipeline feeding live financial metrics into a React dashboard for real-time trader monitoring.
- Integrated JPMorgan Chase's Perspective library to generate interactive visualizations of stock price ratios.
- Implemented automated unit tests to ensure accuracy and reliability of financial calculations.

Resume Automation MCP - LaTeX, YAML, GitHub Actions, LLM github.com

- Built an automated document generation pipeline using LLM-driven content selection for tailored output.
- Engineered CI/CD workflows with GitHub Actions for automated compilation and artifact management.
